

August 2025

This month we are pleased to present a selection of our newest test fixtures!

THS1376-200-GT140

Special fixture for measuring stability and flow of the asphalt mixture according to **ASTM-D6931** and **ASTM-D6927**.

ER50.0x50.8
Loading strips for specimens 100 mm diameter according to **ASTM-D6931**.

ER75x75
Loading strips for specimens 150 mm diameter according to **ASTM-D6931**.

THS922

Tensile test fixtures to measure longitudinal tensile properties of fiberglass pipes according to **ASTM-D2105**.

SEE DATASHEET

THS922-10-44+E38+E43
similar to ASTM-D2105.

THS922-50.8-AmM42x2
THS922-76.2-AmM42x2
Special fixtures for longitudinal
tensile properties of fiberglass
pipes.

THS1445-V4

Bend test fixture to determine the flexural properties of materials like leather, plastic and textiles used in motor vehicles according to **VDA230-209**.
